

I,ve been retired for 8 yrs. and have been haveing to pay preimums for health ins for a family policy because the ins co doesn't allow me to elect for 2 single policies. It is just my wife and I who need ins at our age. It is costing me an extra 4200 A Month because of there policy. Would like to see this changed in the ins industry. I turn 65 this yr so any change will not help me but will help others in the future.

Thank You

Richard Curto
